HW 224: Create Task Question(s)

1. Does it affect your score if there is an error in your code?
2. Are comments in the code required? If not, do they affect your score if you have them or don't?
3. What is the difference between incremental and iterative development? And how do we address that in our responses?
4. Can any part of your code be fundamental to your program? What makes something fundamental?
5. What is a programming journal?
6. What do they mean when they say we cannot have someone else correct our responses?
